Focused Distribution - China

## Focused News Distribution List

China – Chinese Language Translation Required

Focused distribution to reach China and Hong Kong. This circuit offers precise delivery to the most complete distribution in the region.

Includes posting to all media outlets, financial websites, databases, and news agencies (newspapers, magazines, TV, radio) as well as email reach to journalists, bloggers, and other online audiences.

News is translated into Simplified Chinese for China and Traditional Chinese for Hong Kong.

## Our Distribution Lists Contain No Artificial Fillers.

Driven by a commitment to transparency, our global distribution lists are honest, accurate and easy to understand. That's why our lists are compact and concise, rather than artificially inflated.

When judging the authenticity of distribution lists, it's good to know how Newsfile's approach sets a different standard based on getting results you can trust.
