Focused Distribution - UK Regulatory

## Focused News Distribution List

UK Regulatory – English Language

Regulatory News Service (RNS) posting is a required disclosure for most UK listed and Aim companies. This circuit submits your announcement to RNS to meet both financial disclosure requirements and communications with investors.

Releasing announcements through RNS ensures company information is distributed immediately and accurately in full text and in industry-leading formats. Announcements are visible on over 2 million market professional terminals, databases, and financial websites across the world, including: Thomson Reuters, Bloomberg, Dow Jones as well as the LSE's own corporate website.

### Our Distribution Lists Contain No Artificial Fillers.

Driven by a commitment to transparency, our global distribution lists are honest, accurate and easy to understand. That's why our lists are compact and concise, rather than artificially inflated.

When judging the authenticity of distribution lists, it's good to know how Newsfile's approach sets a different standard based on getting results you can trust.
