Benchmark	NYSE Arca Gold Miners (GDM) Index			

Investment Philosophy and Objective

Le fonds a pour objectif de surperformer son indice de référence, le NYSE ARCA GOLD MINERS Index NTR (Net Total Return), sur la durée de placement recommandée, et après prise en compte des frais courants. Il est investi principalement en actions internationales liées à l'exploitation de mines d'or, d'argent et, dans une moindre mesure, d'autres minéraux et métaux précieux.

The fund aims to outperform its benchmark, the NYSE ARCA GOLD MINERS Index NTR (Net Total Return), over the recommended investment period, and after taking into account ongoing charges. It is invested primarily in international equities related to the mining of gold, silver and, to a lesser extent, other minerals and precious metals.

Gérant de Fonds **Mr. Arnaud du Plessis** SFAF B.Com arnaud.d@cpr-am.fr

Arnaud du Plessis joined Amundi in November 2010 as senior portfolio manager, Gold Equities and then Global Resources Equities. Previously he was head of Cyclical Equities at Natixis Asset Management (2002-2010) where he was in charge of precious metals, basic materials and energy. Prior to that, Arnaud worked as European Equities Portfolio Manager with Crédit Lyonnais Asset Management (1998-2002), after being Head of Derivatives Trading (1989-1997).

Arnaud started his career as Options Trader and then Sales with Patrice Wargny SA (1988-1989). Arnaud is a graduate of the Institut Supérieur de Gestion and also of the French Society of Financial Analysts (SFAF). Outside of work, Arnaud enjoys motorcycle, wine and pastry, and also history.
