Artificial Intelligence 101

Artificial Intelligence (AI)

Any technique that enables machines/software to solve a task using critical decision making

Artificial Neural Networks (ANN)

A ML approach in which algorithms process signals via interconnected nodes, i.e. artificial neurons.

Machine Learning (ML)

Algorithms that allow computers to learn from examples without explicit programming

Deep Learning

A subset of ML which uses a particular neural network as models and automatically builds a hierarchy of data representations

Business Strategy Coaching

Access deep industry background and sector expertise. strategy, recruiting, business dev, M&A, etc.

Mergers and Acquisitions

Identify, evaluate and qualify opportunities for M&A via our deal desk committee and custom proprietary system of bottom up valuation, prepare capex, opex and revenue growth plans, capital market roadshows and financial modelling for financing..

Sales Growth / Partnerships

Benefit from an experienced management with over US \$1B in Digital Media / Adtech Sales, F100 level customers to up/cross sell and grow revenue.

Shareholder ROI

Drive new value and advise on new public offerings, including financial modeling, contract development, investor materials, capital roadshows, etc.

— Accelerator Services

Strategic Development of Technology, Marketing, Customers, Operations, etc.

DGTL specializes in incubating fully commercialized and high margin enterprise SaaS (software-as-a-service) companies via creative and efficient investment, M&A or licensing structures.

— The World Online

DGTL is in a unique position to benefit from the explosive growth of the disruptive social media and mobility sub-sectors.

Brands Have Been Investing in Digital Advertising More Than Ever

The shift from traditional to digital media is accelerating, as consumers spend more and more time online.

The information contained in this presentation is not directed to persons or entities resident in the United States and does not constitute an offer to buy, sell, issue or subscribe for, or the solicitation of an offer to buy, sell or issue, or subscribe for any securities in the United States or in any jurisdiction in which such offer, solicitation or sale would be unlawful or to any person to whom it is unlawful to make such an offer or solicitation. This presentation contains information pertaining to the business, operations and assets of the Company. The information contained in this presentation (a) is provided as at the date hereof and is subject to change without notice, (b) does not purport to contain all the information that may be necessary or desirable to fully and accurately evaluate an investment in the Company, and (c) is not to be considered as a recommendation by the Company to purchase any securities of the Company. An investment in the securities of the Company is speculative and involves a number of risks that should be considered by a prospective investor. Where any opinion or belief is expressed in this presentation, it is based on the assumptions and limitations mentioned herein and is an expression of present opinion or belief only. No warranties or representations can be made as to the origin, validity, accuracy, completeness, currency or reliability of the information. All information and data provided in this presentation is strictly private and confidential. No person is authorized to copy or re-distribute any materials in this presentation without the express permission of the Company.

STATUTORY RIGHTS OF RESCISSION - Securities legislation in certain of the provinces of Canada provides purchasers with rights of rescission or damages, or both, where an offering memorandum or any amendment to it contains a misrepresentation. A “misrepresentation” is an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make any statement not misleading or false in the light of the circumstances in which it was made. These remedies must be commenced by the purchaser within the time limits prescribed and are subject to the defences contained in the applicable securities legislation. Each purchaser should refer to the provisions of the applicable securities laws for the particulars of these rights or consult with a legal advisor. The following rights are in addition to and without derogation from any other right or remedy which purchasers may have at law and are intended to correspond to the provisions of the relevant securities laws and are subject to the defences contained therein. The following summaries are subject to the express provisions of the applicable securities statutes and instruments in the below-referenced provinces and the regulations, rules and policy statements thereunder and reference is made thereto for the complete text of such provisions.

Market and Industry Data - This presentation may include market and industry data and forecasts that were obtained from third-party sources, industry publications and publicly available information. Third-party sources generally state that the information contained therein has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of included information. Although the Company believes it to be reliable, it has not independently verified any of the data from third-party sources referred to in this presentation, or analyzed or verified the underlying studies or surveys relied upon or referred to by such sources, or ascertained the underlying economic assumptions relied upon by such sources.
