

Radient Technologies Inc. Announces First Shipment of Tunaaaaroom Xtracts (TRX) Products to BC and Alberta, Provides Update on Launch of Additional Brands

EDMONTON, ALBERTA, June 18, 2021 – **Radient Technologies Inc.** ("Radient" or the "Company") (**TSX Venture: RTI; OTCQX: RDDTF**), a commercial manufacturer of diverse, novel and high-quality cannabis extracts and packaged products, is pleased to announce that it has completed its first shipment of Tunaaaaroom Xtracts ("TRX") products to British Columbia and the Yukon. TRX products are now sold through provincially-licensed retailers in a total of 5 provinces, including the Northwest Territories, Saskatchewan, and Alberta.

Subsequent to its first shipment of TRX products to British Columbia, Radient has received a follow up order for the same products to be shipped to retailers in BC.

On <u>December 8th 2020</u>, Radient announced it had signed a licensing agreement with Tunaaaaroom to manufacture and distribute a wide range of premium cannabis extracts targeting cannabis consumers, to be sold across Canada under the Tunaaaaroon Xtracts brand.

Launch of New Tunaaaaroom SKUs This Summer

Due to the successful sales performance of TRX products, Radient and Tunaaaaroom will be launching a new line of SKUs including; live resin vape carts, caviar, THCa dimonds, and several other products expected to come to market this summer.

Update on Progress of Atomic Eh Brand

Radient is pleased to announce that its licensing partner brand, Atomic Eh, has now been successfully onboarded into Saskatchewan, Alberta, BC, and New Brunswick provincial distributors. The Company expects to ship its first products for the Atomic Eh brand late summer, and is working with Atomic Eh to get products onboarded in every province in Canada by the end of July.

On <u>May 3rd 2021</u>, Radient signed a definitive licensing Agreement (the "Agreement") with Atomic Eh to launch its first cannabis brand targeting under-served indigenous communities. Radient is working exclusively with Atomic Eh to roll out cannabis 2.0 products, including BHO extracts, vape cartridges, dry flower, edibles, and solventless

extracts using Radient's distribution channels. According to the Agreement, Radient will manufacture between 25,000 – 50,000 units of product per month, to be sold under the Atomic Eh brand, providing Radient with additional product offerings on retail shelf space.

Radient CEO Harry Kuara commented: "We are very pleased that Radient's Tunaaaaroom branded products are now available in more Canadian provinces, increasing our footprint and customer touchpoints. Additionally, the successful sales performance of our TRX products in BC and Saskatchewan indicates that our high-quality products appeal to cannabis consumers. Our partnerships with Tunaaaaroom and Atomic Eh allow us to generate revenue while expanding our brand profile with the launch of additional SKUs in the coming months."

About Radient

Forward Looking Information:

This press release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. Forward-looking information includes, without limitation, statements regarding the growth of the Company's business operations. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Radient, as the case may be, to be materially different from those expressed or implied by such forward-looking information. Although Radient has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no

assurance that such information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking information. Radient does not undertake to update any forward-looking information, except in accordance with applicable securities laws.
