SERVICES

CORPORATE FINANCE ADVISORY

Noraal is committed to quality and consistency in service excellence, bringing the best practices to clients.

We work closely with our clients, providing support for a broad range of business critical decisions such as financing and refinancing, cost reduction, capital management programs, and transactions.

For a company, financial professionals help provide an overall opinion about the company's

economic stability and financial situation / projects. When a company decides to expand its operations by building a new business or sector, financial advisors can help provide an independent opinion on such a case.

They examine all the information about a company and build a financial plan, which will act as a guide for future performance of the company's finances.

SERVICES

FINANCIAL RESTRUCTURING

Our advisory professionals deal with complex problems and implement solutions, helping our clients strengthen their financial performance and growth.

We solve challenges and efficiently work with our clients on their corporate restructuring and reorganization.

The corporate financial restructuring involves restructuring the assets and liabilities of corporations, including their debt-to-equity structures, in line with their cash-flow needs

to promote efficiency, support growth, and maximize the value to shareholders, creditors and other stakeholders.

Financial restructuring services can expand to the following areas:

- Securing asset-based loans (accounts receivable, inventory, and equipment)
- Securing mezzanine and subordinated debt financing
- Securing institutional private placements of equity
- Achieving strategic partnering
- Identifying potential merger candidates

SERVICES

M&A APPRAISAL AND VALUATION

The evaluation of an acquisition or sale of a division or company exposes the risks and compromises. As well as valuation analysis to assess existing and proposed capital structure.

Our Valuation services help you make decisions confidently, boost your results, and help you get ahead in your business, Noraal brings extensive experience in valuing, modeling, and analyzing business interests and their

underlying assets, including in the context of M&A, strategy, restructurings, and tax financial reporting compliance.

We support in standardizing the company's processes, procedures, and guidelines used to determine the value of a business, while ensuring the creation of a Reliable & Defensible Business Appraisal Report.

SERVICES

CREDIT RAISE AND DEBT RESTRUCTURING

Team of experts provide different services from analyzing the capital structure options and preparing proposals, to negotiating and applying solutions with all relevant stakeholders. Our service include operational restructuring services, valuation and financial modeling services among others.

We come up with innovative ideas for our clients' options and interact with the relevant stakeholders to build consensus around a restructuring solution that aims at maximizing the value for all stakeholders.

We come up with productive solutions to avoid and minimize the problems and improve liquidity by establishing fair and equitable debt repayments to creditors.

We also work with companies who face issues with transactions or market conditions. We work directly with our clients' lenders, suppliers and creditors so they avoid personal and commercial problems, to be able to focus on their core businesses.
